

Park Dental Partners Foundation Celebrates 10th Anniversary

April 11, 2025

This year marks a key milestone for the Park Dental Partners Foundation: 10 years of advancing oral health and improving lives across the Midwest. The non-profit was created with the goal to support education, research and dental care outreach. Since the formation in 2015, they have distributed over \$600,000 in grants and scholarships and have plans to widen their reach in the years to come.

In 2024, the Park Dental Partners Foundation provided 37 scholarships to dental students and allocated \$61,000 in grants to an array of organizations that work with key outreach recipients including children, disabled, elderly, and homeless or very low-income residents. "Our mission has always been about giving back to our community — it's about transforming lives through better oral health," said Jean Lind, President of the Foundation. "Thanks to the generous contributions and the success of our Annual Golf Invitational, the Foundation has grown tremendously over the past decade. Today, it stands as the largest dental group foundation in the Midwest."

"At Park Dental Partners Foundation, we envision a future where every smile reflects the health and happiness of our community. Over the next decade, the Park Dental Partners Foundation is committed to increasing our grants to support those in need, and empowering new providers through educational support. Through these efforts, we aim to enhance the dental health of our community, one smile at a time," said Lind.
