

Park Dental Partners Welcomes Andrew L.F. Hegstad Family & Cosmetic Dentistry

August 1, 2025

Park Dental Partners is proud to announce the newest addition to its general dentistry family: Andrew L.F. Hegstad Family & Cosmetic Dentistry, located in Forest Lake, Minnesota.

Dr. Andrew Hegstad, a Forest Lake native and former patient of the practice, has been delivering exceptional, patient-centered care since acquiring the clinic in 2003. Originally established in 1978, the practice has long been a trusted dental provider in the community.

Dr. Hegstad brings a rich background in both education and experience. He graduated with honors from Concordia College in Moorhead, MN, majoring in Biology and Scandinavian Studies. He earned his Doctor in Dental Surgery degree from the University of Minnesota School of Dentistry in 2000 and began his career with Park Dental, serving patients at the Roseville and Coon Rapids locations. Outside of dentistry, Dr. Hegstad enjoys model trains, travel, skiing, biking, and playing guitar.

Dr. Hegstad's Forest Lake practice is conveniently located in the Forest Lake Town Square building at 20 North Lake Street—directly across from the Forest Lake location of The Dental Specialists, another Park Dental Partners brand. The team will officially begin their affiliation with Park Dental Partners on Monday, June 16, 2025. Park Dental Partners looks forward to continuing its mission of supporting practices that deliver high-quality, compassionate dental care to communities across the upper Midwest and select national markets
